## 3 Reasons to choose TinyBee toys for kids

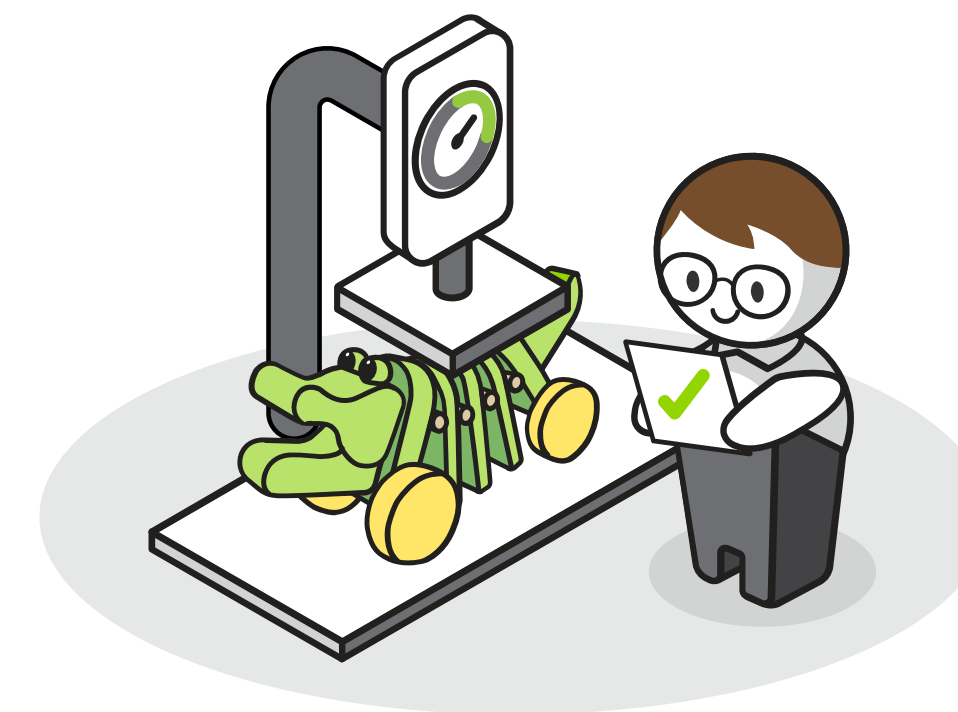

### We are passionate about child safety

We pay close attention to the safety standards of our production process. All of our materials are non-toxic and environmentally friendly so parents can let their children play without a worry.

### We help children to develop

Every parent wants to see their child successfully grow and develop. We believe that creative and educational play can help them do this! By playing with our educational toys, children learn and evolve in a variety of ways.

### 100 % Tested in BIS Certified Lab

We believe that a quality environment will give rise to quality individuals. At PlanToys, we use water-based colors that are chemical free, E-Zero glue that doesn't contain formaldehyde.
